Tailor's Thimble

With over 40 years of experience Joe started working in his uncle's shop selling fabrics to renowned tailors across the island.

He enjoyed watching them work when he delivered goods to their workshops. This sparked his curiosity and creativity. He started working as an apprentice with one of these tailors while studying the craft with the trade school. He eventually set his own business in Mosta where he still is located today.

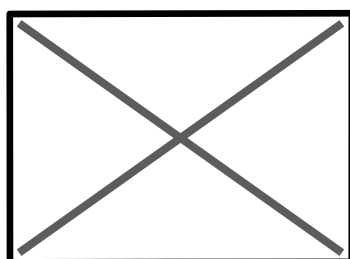

The Tailor's Thimble Experience

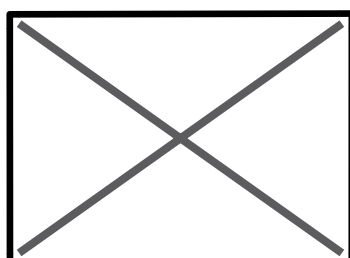

Step 1: Virtual Introductory Call

Joe will learn more about you, ask questions to build your profile, and better understand your needs. Discuss dates, design, ideas, fabrics and custom details. Schedule the Meet Up

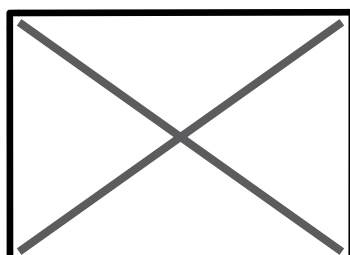

Step 2: Meet Up - The Design Process

Bring in your ideas and Joe will draw out your desired dress / suit to fit your needs. Discuss fabrics and schedule your next meet-up for measurements and completed design.

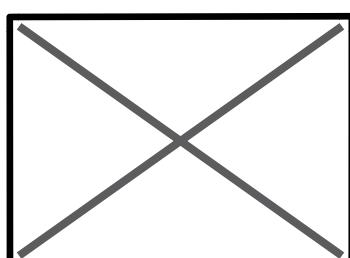

Step 3: Meet-Up - Buy fabrics and get measured

With the design in completion, it's time to purchase your fabrics and get fully measured. Schedule first fitting.

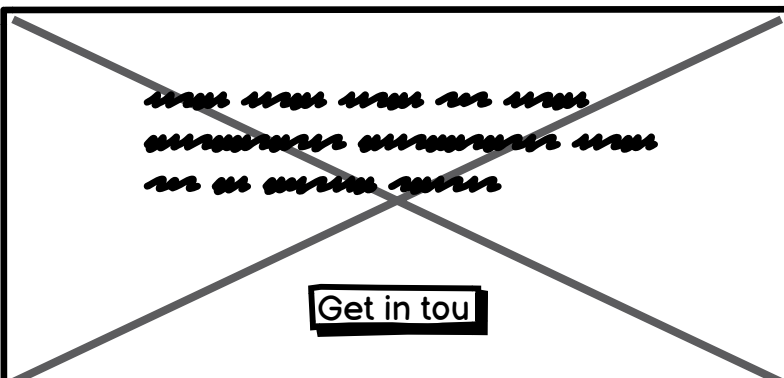

Steps 4 & 5: First & Second Fitting

First fitting is always exciting. Joe will assess the fit to confirm that the design and material chosen showcases your personal style. Refine details in 2nd fitting and Joe will make sure you're happy with your choices.

Step 6: Last fitting and Pick up

At this stage the dress/suit is complete, but you get to try it on again before you take it home. Any minor alterations will be accommodated for to make sure you are 100% happy.

The image is a hand-drawn style mockup of a mobile application interface. At the top, there's a status bar with a grey background showing a Wi-Fi signal, cellular signal bars, a battery icon, and the time 14:17. Below this is a white header bar with the text 'Tailor's Thimble' on the left and a hamburger menu icon on the right. The main content area is a white card with a black border. Inside the card, the title 'Schedule an Appointment' is centered. Below the title is a paragraph of text: 'Some text on filling form correctly' followed by 'Link to Process for more details'. A horizontal line separates this text from the form fields. The form consists of: a 'Type *' label above a dropdown menu with 'Consultation' selected; a 'Date *' label above a date input field with slashes and a calendar icon; a 'Time *' label above a dropdown menu with '08:30AM' selected; a 'Comments' label above a large text area; a 'Submit' button; and a 'Back to Appointments' button. At the bottom of the app, there's a footer bar with the text 'Stay updated:' followed by Facebook, Instagram, and LinkedIn icons, and a copyright notice '@ 2022 All Rights Reserved'.

If user has no appointments yet scheduled a card saying that user has no appointments scheduled yet will be displayed. This will direct the user to the Add Appointment button.

Appointments which haven't yet been approved will have slightly different text which will say something along the lines of "Your appointment hasn't been approved yet. We will get in touch with you asap to confirm or reschedule your appointment".

This will look more or less the same of tablet and desktop. The card will grow and centre horizontally on the page. Form fieldset will be getting a bigger indent on wider screens.
